**Subject:** RE: Master Builders Awards

We are over the moon with our new house! Before the renovation it was an old cream brick building falling down around us with poky rooms that let no light in even in the middle of the day. Now it is open airy and full of light with living spaces that suits our family of 5 perfectly. Kreca renovations helped make our vision become a reality with great ideas and expert tradesman in all areas to overcome the many problems that inevitably arise with such a large renovation. We were also very appreciative of Kreca's flexibility to work with a couple of our own sub contractors to give us the home we always dreamed of .

Sincerely

Simone and Scott Stevenson
